PURCHASES MADE LAST FALL

(Wednesday's Advocate)
The Danville tobacco market took a wild leap to a high plane of increased prices this morning. The wildest enthusiasm prevailed among the big crowd on the breaks. Enthusiasm was unbounded.

Crop averages ranged from thirty cents to fifty cents a pound, and a thirty cents average was a rarity. Robert Burton and Noel, of Garrard county, broke the season's average, receiving an even fifty cents a pound for their crop. Col. R. G. Evans and Peach, of Boyle county, reached a high mark with an average of \$44.15, while R. T. Quisenberry and Worthington stood away up among the big figures, making an average far above forty cents a pound. Baughman & Mitchell, of Lincoln county, averaged forty cents a pound, while scores of other growers ranged along with them.

Not in the history of tobacco growing has such high prices been realized for the weed as is being paid on the Danville breaks.

There were about twenty ladies present on the breaks this morning listening to the Premier Auctioneers, Capt. Dock Holland and Capt. Walter Dunn, sing the sales. They were singing right this morning and the buyers were stirred to a high pitch. Col. I. M. Dunn and Allen Heintz were on the job boosting in their inimitable fashion.

Just think of being able to sign checks daily, good for \$60,000 and more. This is what John S. VanWinckle and David Harris do five days out of every week. They are the official money changers for the big ware house business and think nothing of paying out a quarter of million dollars in five days.

Many visitors from a distance were on the breaks this morning; all were unanimous in their opinion that the Danville market stands head and shoulders above anything in Kentucky.

The weed is still coming in another big sale will be held in the houses tomorrow. It is worth our while to attend. Once you get the habit you will attend the sales almost every day. Among the many high averages this morning the following are a few:

Coakley was elected chairman of an organization gotten up at Wayneburg the other night for the purpose of selling war stamps. A large membership was enrolled. Mr. Wheelon feels mighty good about the outcome of the drilling for oil in his section. He says the greasy fluid is sure to be found in paying quantities and that a great deal of drilling will be done this spring. While Cashier Wheelon was here Wednesday, his capable daughter, Miss Carol Wheelon, ran his bank. "I frequently have to leave her to look after the bank," said he, "and she always takes good care of it. Some say she is a better banker than her father."

CAPT. SCOTT TAKES BRIDE
It will interest those who may remember him as a child while living at the home of his grandfather, the late Mr. James Lawless, about a score of years ago a resident of Crab Orchard, that Captain John Scott, U. S. A., recently married at a Western post, the widow of an officer, and is now doing his bit in France. Captain Scott seemed predestined for the army. His father, Captain John Scott, a Scotchman, was of the Union forces in the Civil war, and in passing through Crab Orchard with the troops met there the beautiful Miss Mary Lawless and later married her. The couple lived at a far Western post till the death of Capt. Scott, upon which the widow returned with her three children to the home of her father. The widow ... her eldest son ... a soldier. Harry Jacobs, the Stanford monument man, has sold to Mrs. B. D. Carter and brothers, of Mitchellsburg, a 5,000-pound Georgia monument to be placed on the family lot in Bellevue Cemetery, Danville, for Mrs. Sallie Goode, husband and daughter. Mr. Jacobs also recently sold to Adam W. Carpenter, a 15,000 Milford, N. H., granite monument to be placed in Buffalo Springs Cemetery. He says that marble and granite are both rapidly increasing in price and that if there ever was a time to buy, it is now, before they get higher.

DOGS ATE UP THE CHURCH
In the Hudson Bay country, where the dogs are half wolves, a band of these famished animals actually ate up a church, says the Toronto Mail-and-Empire. The Eskimo Christians had built a tiny chapel, to hold 20 people. But the poor converts did not long enjoy the little church, of which they were so pathetically proud. The building was of whalebone, an edible substance, and one Sunday the pagan dogs ate every morsel of the sacred edifice.

EXPLAINED INCOME TAX LAW
Collector John W. Hughes and Hon. Charles C. Spalding spoke to some 75 or 100 taxpayers in the circuit court room of the court-house Wednesday afternoon, explaining the income tax law. Judge Hughes, who is collector of Internal revenue of this district, spoke first, telling of the importance of making a report to a revenue officer if the income of a single man is as much as \$1,000 and that of a married man \$2,000. It does not necessarily mean that because the income is as much as \$1,000 or \$2,000, under the different conditions, that one is liable for income tax, for there are many exemptions to be made, but the penalty of not reporting is just as severe for those who are not liable as it is for those who are, in the event the income as a single man is \$1,000 or \$2,000 as a married man. Judge Hughes insisted that when it is possible to pay the cash, that it will be a great help to the government, although those who can not do so conveniently will be given until June 15th to pay their income tax. Mr. Spalding has studied the income tax law and being very conversant with it, was able to make its workings clear to his audience. After going over the three divisions—business men, professional men and farmers—he asked those who had questions to ask, to kindly do so. Many took advantage of the opportunity to better acquaint themselves with the provisions of the law and his answers were as clear and concise as was his talk. Judge Hughes is very anxious that every taxpayer in his district be given the best knowledge possible about the income tax law and he is sparing neither time nor energy in making the matter clear to them. He and Mr. Spalding will visit as many counties in this collector's district as possible and will speak in them all if they have time. It is regretted that a larger crowd did not greet the speakers, but the limited time given to advertise it is due the fact that the court room was not filled.

REV. JOHNSON TO SPEAK
On tonight at the meeting of the Liberty Service League Rev. Andrew Johnson, of Wilmore, well known in this county where he lived many years, will be the principal speaker. An open session of the League will be held in the circuit court room and a cordial invitation is extended one and all. Rev. Johnson is a son of the late John Johnson, who lived on the "Spartan" pike a number of years ago, but who later moved to Jessamine county. Rev. Johnson is especially invited.

LIEUT. PERIGORD AT RICHMOND
Lieut. Perigord will address an audience at the Christian church in Richmond tonight under the auspices of the Defense League and Lincoln county people are invited to hear him. Prof. T. J. Coates, president of E. K. N. S., in extending the invitation says: "I hope that you may see fit to notify your readers of this address, and urge them, where they can, to come over and hear this great speaker who will probably deliver the message as no other man in America can do."

ADJOURNS UNTIL MONDAY
Circuit court adjourned Wednesday afternoon until Monday and the grand jury adjourned until Tuesday. Very little has been done in court so far. The several railroad cases that were to have been tried this term were continued on account of railroad being in the hands of the government. Sylvester Jones, colored, was given three years in the pen for bigamy. After the trial Jones asked the judge if he might ask a question. He was told that he might and he put forth this inquiry: "Judge, after I serve my term, which one of my wives will I have to live with?" "You have only one wife, as your marriage to the second one was illegal," Judge Hardin informed him, and the news was seemingly not welcome by him. Frank Thurman, also colored, was given a year in the penitentiary for stealing a gobbler from J. L. Beazley about a week ago. Sam. Cloyd, another negro, asked that he be given a jail sentence for breking into the Q. & C. depot at McKinney. Judge Hardin accommodated him by sending him to the county bastille for a year.

DEATH OF MRS. THOMSON.
Mrs. Ida VanArsdale Thomson, widow of the late Prof. G. Matthew Thomson, died at Lexington Thursday morning after a protracted illness, aged 52. She was lady principal of Hamilton College and her death occurred in her apartments at that institution. Mrs. Thomson, who was a second cousin of Mrs. H. J. McRoberts, of this city, with her husband lived a number of years in this county when they had charge of Christian College, at Hustonville. Her husband died some four years ago and since that time she has been connected with Hamilton College. One daughter, Miss Catherine Thomson, survives. Deceased was born and reared in Mercer county, where she had many relatives. Mrs. Thomson had many friends in this county who will learn of her death with much regret.

PRESENTS FATHER'S PICTURE
Hon. Charles C. Fox has presented to Lincoln county a splendid oil painting of his father, Judge Fontaine T. Fox, who at one time lived in Stanford and who for many years was circuit judge of this district. The picture has been hung in the circuit court room, together with those of Col. W. G. Welch, Gov. Isaac Shelby, Judge J. M. Morrow, Col. Thomas P. Hill, Judge Winfred G. Bailey, and others. The picture is a valuable historical record of the history of the county and is highly prized by the county people generally. Those who remember Judge Fox, and there are many, say it is an excellent likeness.

GEOFFREY F. BLANKENSHIP
Geoffrey Florence Blankenship, aged 23, died at the home of his parents, Mr. and Mrs. Sim Blankenship, near Preachersville, Wednesday and was buried Thursday in the Preachersville burying grounds after comforting words at the home by J. C. McClary, of this city. Mr. Blankenship had been ill only a few days of cerebral meningitis, and his death came as a great shock to his relatives and many friends. Besides his parents, the deceased left several brothers, including the I. J.'s, excellent Preachersville correspondent, Mr. B. I. Blankenship. He was in the draft and would likely have been sent to France in a short while had not death played its part.

'T WAS NOT FOR PERSONAL USE
Chief of Police George T. Wood worked up a case Thursday against Clayt Baughman, colored, who had ordered a gallon of booze sent him by express. As is necessary, Baughman went before a notary public and swore that the whisky was for his own use. Mr. Wood kept his eagle eye on Baughman and when he found that he was going to divide his whisky with Hathaway Hill, he took him in tow and carried him before City Judge R. L. Davison, who fined him \$50. Baughman is laying out the fine in jail.

OBSTRUCTED PUBLIC HIGHWAY
William Taylor was tried before Judge T. A. Rice Thursday for obstructing the public highway by building a fence across a road. He claimed that the road was through his place, but failed to establish that fact, and further had failed to get permission to close the road. He was fined \$10 and costs. Failing to pony up he was taken to jail, where he is laying out the fine. Taylor says he is not going to remove the fence and the chances are he will be fined again.

TO RESIST THE ATTACK

of the germs of many diseases such as Grip, Malaria, means for all of us—light or die. These germs are everywhere in the air we breathe. The odds are in favor of the blood impure.

What is needed most is an increase in the germ-fighting strength. To do this successfully you need to put on healthy flesh, rouse the liver to vigorous action, so it will throw off these germs, and purify the blood so that there will be no "weak spots," or soil for germ-growth.

We claim for Dr. Pierce's Golden Medical Discovery that it does all this in a way peculiar to itself. It cures troubles caused by torpid liver or impure blood.

WOODFORD, TENN.—"This is to certify that I have used Doctor Pierce's Golden Medical Discovery for my two little boys. One had night sweats, poor appetite, yellow complexion, and had quit growing, but after giving him, part of a bottle of the 'Discovery' he commenced to gain and grow. He doesn't have the night sweats and looks much better. My other little boy had scrofula and this medicine cured him after the doctor's medicine had failed. I do not hesitate to recommend the 'Discovery' at all times."—MRS. ROSA LEE HOGAN, Route 1.

Dr. Pierce's Pills are unequalled as a Liver Pill. One tiny, Sugar-coated Pill a Dose. Cure Sick Headache, Bilious Headache, Dizziness, Constipation, Indigestion, Bilious Attacks, and derangements of the Liver, Stomach and Bowels.

NEW HEN RULING A BLESSING

The ruling of the United States Food Administration prohibiting the selling of hens and pullets from February 11th to May 1st, 1918, is for the purpose of conserving the egg supply of the country and to encourage the production of more chickens.

It has been an unfortunate custom in the State of Kentucky for the farmer to sell hens during the early spring months, just at the time when they would be producing the most eggs. It is estimated that 1,000,000 fowls are sold annually from this State during this time. This represents a loss of 30,000,000 eggs, which will be prevented this year.

Heretofore every farmer who has sold a hen during February has lost at least fifty cents per hen by so doing. Therefore, this rule is not a hardship, but a blessing, as the income to the farmers in Kentucky will be something like \$500,000 more than if the hens had been sold.

The nation needs the eggs that will be laid by those hens in order to increase our food supply and help win the war.

After May 1st these hens may be sold as usual.

Furthermore, do not "break up" the broody hen. She is only expressing her desire to help defend the Kaiser. Give her a setting of eggs and let her raise chickens. It will be both profitable and patriotic.

FRED M. SACKETT,
Federal Food Administrator for Kentucky.

BANISH CATARRH

Breathe Hyomei For Two Minutes
And Stuffed Up Head Will Get Relief

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time breathe Hyomei.

It will clean out your head in two minutes and allow you to breathe freely.

Hyomei will end a cold in one day, it will relieve you of disgusting snuffles, hawking, spitting and offensive breath in a week.

Hyomei is made chiefly from a soothing, healing, germ killing antiseptic, that comes from eucalyptus forests of inland Australia where catarrh, asthma and consumption were never known to exist.

Hyomei is pleasant and easy to breathe. Just pour a few drops into the hard rubber inhaler, use as directed and relief is almost certain.

A complete outfit, including inhaler and one bottle of Hyomei, costs but little at druggists everywhere and at The Penny Drug Store. If you already own an inhaler you can get an extra bottle of Hyomei at druggists.

One thousand members of the 366th Infantry, composed of selects from Louisville and Kentucky, have been ordered to other localities. The unexpected order keeps secret the destination of the soldiers who will be moved in three sections.

EXCELLENT ADVICE, THIS

The Rev. Dr. Charles A. Eaton, pastor of the Madison-avenue Baptist church, of New York, is one of those ministers of the Gospel who places the country's welfare ahead of the routine of the pulpit; and while presently engaged in war work amongst the ship builders in the East, he lays aside the formal language of his cloth and approaches the men among whom he labors in a virile manner of thought and address that must make a strong appeal to them, as it should appeal to anyone coming in contact with the good Doctor's teachings.

Dr. Eaton had occasion the other night to treat of German spies in the shipyards. He did not mince his talk on this head. He explained to 300 ship building foremen what measures they should take when dealing with spies. His suggestions were entirely to the point—they might well be taken by the Department of Justice as a working plan for the operatives of the Secret Service and other detective forces of the United States.

Speaking of spies, the Doctor said: "You'll find them here. They'll wait till your back is turned, they'll tell the men: 'Don't pay any attention to him. Don't do any more work than you have to.' They'll whisper behind your back and in a hundred ways impede the work. When you find such a man, don't wait, don't say to him, 'Come let's talk this over.' Don't ask him to have tea; knock his block.

And when he comes sneaking around with a bomb, don't say, 'Let us pray,' but take him out there on the marsh and tie him down and place the bomb on his chest. Light it and stand off and watch him blow to his Kaiser—to hell. Be regular he-men. Work whether the boss is around or not. The destiny of the country is in your hands. Every man in a shipyard is a fortress of freedom, every rivet a nail in the Kaiser's coffin.

I was born in a shipyard and the first smell I can remember is of hot tar and oakum. Our greatest weakness nowadays is our lack of sense of moral obligation; the soul of man has gone astray. Men who apply for work ask, 'Is the work hard?' 'How long will it last?'

What is the matter with you? Do a day's work because you are men. There is no hope for democracy till the rich man and the poor man give all they have, their very best.

There's nothing of procrastination in this advice. Upon two heads Dr. Eaton has given the ship foremen the most excellent counsel; and it goes for all citizens whether they work with their hands or not. Everybody should be on the lookout for spies and propagandists; and every man and woman should be alert to do a day's work every day in the nation's behalf, whether at food production, food production or in any other routine that contributes to the general prosperity of the country. The situation has room for many ministers of the Gospel to do the work that Dr. Eaton is performing so ably among the ship workmen.—Louisville Times.

YOU'RE BILIOUS! LET "CASCARETS" LIVE IN LIVER AND BOWELS

Don't Stay Headachy, Constipated, Sick, With Breath Bad And Stomach Sour

Get a 10-cent box now.

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets, or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Do not forget the children. They love Cascarets because they taste good—never gripe or sicken.

Secretary Baker authorized the statement that no date had been selected for the beginning of the second draft. Various estimates have placed the time between March 1 and June 1. These are declared to be entirely guesses.

Gov. Stanley last week put to rest a little scheme to push through the Legislature a bill providing for a dog-catcher in each county at a salary of \$60 a month. Doggone the Governor. That's the only office many of us could ever hope to win and we are not so sure about that.—Cynthiana Democrat.

JUNCTION CITY

Dr. Horace Turner, of the Danville Methodist church, with Prof. Hickman Carter of the D. & D. and Mr. Nelson Rhodes, of Danville, came out Monday night and spoke at the Baptist church on "Thrift and War Saving Stamps." Dr. Turner, who made quite a hit with us Junction City people in July at the flag raising and in November at Junior Patriotic meeting, again captured his audience by his characteristic and manly way in which he lambasted the Kaiser and it is hoped that after Prof. Carter's explanation of the stamps, that many boys and men and women will try saving at least 25c a day or week or a month and help Uncle Sam get that \$2,000,000,000. Help all. Mr. Rhodes spoke on food conservation.

Prof. O. B. Fallis, county superintendent, was at Shelby City Tuesday on important business connected with the school there.

Miss Anna Prewitt has finished her school at Germantown and has given satisfaction.

THE NEW FLOUR RULING

Mixed flours containing less than 50 per cent. of wheat may be sold without substitutes, according to a statement by the United States Food Administration.

Special rules governing the sales of other mixed flours have been promulgated. Retailers are forbidden to sell mixed flours containing more than 50 per cent. of wheat flour to any person unless the amount of wheat flour substitutes sold is sufficient to make the total amount of such substitutes, including those in mixed flour, equal to the total amount of wheat flour in the mixed flour. For instance, if any mixed flour is purchased containing 60 per cent. wheat flour and 40 per cent. substitutes, it is necessary that an additional 20 per cent. of substitutes be purchased. This brings it to the basis of one pound of substitute for each pound of wheat flour.

The other exceptions to this basis of purchase, in addition to that of mixed flours containing less than 50 per cent. of wheat flour, are those concerning graham flour and whole wheat flour, which flours may be sold at a ratio of three pounds to five pounds of wheat flour; and a special exception, which may be granted upon application showing the necessity in the case of specially prepared infants' and invalids' food containing flour.

COMES USE OF MORPHINE

"Troubled about 10 years with what the doctors called gall stones, often I thought I would die before the doctor could get here, when he would give me a hypodermic of morphine and advise an operation. A neighbor told me about Mayr's Wonderful Remedy for stomach trouble and since taking the first dose two years ago I have not had an attack nor needed a hypodermic." You can rest assured that Danville will be the highest market in this section, as we are the closest market to the largest re-drying and manufacturing plants in the world. Our accommodations for both man and beast are as good as the best. The loose leaf floor plan is the best and only way of marketing tobacco to insure the highest dollar to the grower. These facts have been demonstrated in Virginia, North and South Carolina, where they have been selling tobacco on this plan for the past fifty years. Drive your wagon to the Danville market. You will always find some one to attend to your wants, and welcome you. During the sale we will do our very best to get you the highest market price for your tobacco. All the large factory buyers are on hand at each sale. We have experienced men in all departments to look after your interests, including two of the finest auctioneers in this or any other state. Our charges for selling tobacco will be the same as last year. The fact that everything else has increased makes no difference here. The warehouses do not buy tobacco except on sale at auction. We do strictly commission business. Free stables and no rejection fee. Appreciating your past patronage, we hope you will see your way clear to bring us your tobacco, guaranteeing you the highest market prices, absolutely accurate weights and an all around square deal.

GIRLS! HAVE WAVY, THICK, GLOSSY HAIR

FREE FROM DANDRUFF

Save Your Hair! Double Its Beauty

In A Few Moments—

Try This!

If you care for heavy hair, that glistens with beauty and is radiant with life; has an incomparable softness and is fluffy and lustrous, try Danderine.

Just one application doubles the beauty of your hair, besides it immediately dissolves every particle of dandruff; you cannot have nice, heavy, healthy hair if you have dandruff. This destructive scurf robs the hair of its lustre, its strength and its very life, and if not overcome it produces a feverishness and itching of the scalp; the hair roots famish, loosen and die; then the hair falls out fast.

If your hair has been neglected and is thin, faded, dry, scraggy or too oily, get a small bottle of Knowlton's Danderine at any drug store or toilet counter for a few cents; apply a little and in ten minutes after you will say this was the best investment you ever made.

We sincerely believe, regardless of everything else advertised, that if you desire soft, lustrous, beautiful hair and lots of it—no dandruff—no itching scalp and no more falling hair—you must use Knowlton's Danderine, if eventually—why not now?

HEAD AND NOSTRILS

STUFFED FROM COLD

"Pape Cold Compound" Ends A Cold Or Grippe In A Few Hours

You cold will break and all grippe misery end after taking a dose of "Pape Cold Compound" every two hours until three doses are taken.

It promptly opens clogged-up nostrils and air passages in the head, stops asty discharge or nose running, drives sick headache, dullness, feverishness, sore throat, sneezing, soreness and stiffness.

Don't stay stuffed up! Quit blowing and snuffing! Ease your throbbing head—nothing else in the world gives such prompt relief as "Pape's Cold Compound," which costs only a few cents at any drug store. It acts without assistance, tastes nice, and causes no inconvenience. Accept no substitute.

PERUNA in Your Home

A housewife must give the first aid in colds, coughs and other ailments. Her promptness in applying the remedy often saves a serious illness. Her experience with remedies has led her to know that PERUNA is always reliable, that she should have it on hand for the immediate treatment of coughs and colds, and that it is always to her.

Mr. George Parker, 419 Water St., Menasha, Wis., writes: "We have used Peruna in our family for a number of years, and have found it a perfectly reliable medicine. It soon rid the system of any traces of cold, and prevents serious consequences. I began using it for a cold, which I suffered with a good many years, but had not been very serious until recently. Since I have taken Peruna the dropping in my throat has disappeared, and my head and nose are not so stopped up in the morning. I am pleased with the results, and shall continue to use it until I am entirely rid of the ailment. I heartily recommend it as an honest medicine. What it does for her it is ready to do for you."

The Family Safeguard

The experience of one woman, given herewith, is typical of thousands of letters that reach the Peruna Company from grateful friends who have found their homes incomplete, and their family safety in danger without PERUNA.

Colds and Catarrh

The great weight of testimony that has accumulated in the 44 years that PERUNA has been on the market proves it, beyond question, to be the reliable family remedy, ever ready to take, preventing the serious effects of colds, coughs, grip and derangements of the digestive organs. This proof is published from time to time and many families have profited by it.

Remember you can obtain PERUNA in tablet form for your convenience. Carry it with you and be fortified against sudden attacks.

FOR WASHINGTON'S BIRTHDAY

As the years go on, George Washington, Father of His Country, recedes into the past and seems like a shadowy figure of antiquity. The tendency with many people is to regard Abraham Lincoln as the larger of the two figures. It is true that Lincoln faced and grasped an incomparably bigger situation, and contended with far greater forces. Yet the resources back of him and his command were infinitely greater.

Washington's greatness is seen in comparison with the pitifully meager means which he controlled. The commander of a broken force of ragged patriots, half fed, half clothed, poorly armed, his attempt must have seemed hopeless to the worldlywise of his time.

It was not merely the foe he faced, but the petty and sordid divisions of the forces behind him. He was the leader not of a nation, but of a group of jealous and bickering States and of a faint-hearted Congress. Under any ordinary generalship his inadequately equipped army would have turned tail and scattered within a year. But somehow by consummate faith in the guiding hand of Providence, by a speed of thought and action that outwitted a vastly superior foe, he won out against all human odds. So he will ever be regarded by history as one of the world's great military commanders.

It was another test of Washington's greatness that he was not drawn into the petty political feuds of his later years. He was bigger than any political party, able to see beyond and around the ordinary partisan viewpoint.

If we can use the marvelous science and the mighty force enlisted in our war, with as much skill, alertness and second military judgment as Washington showed, we shall win this war. If we can master the same lofty independence of merely partisan spirit that he shed, we shall be helped still further to establish the great principles for which he contended.

The Republicans and so-called Democrats complain that President Wilson has not drafted as should, the leading republicans did him in the prosecution of the war. He tried it once at least to his regret. He sent Elihu Root with a delegation and at cost of many thousands of dollars to Russia to get Russians in line with the fight for democracy and although this innocent Republican reported that he accomplished wonders, the result shows that the mission was the miserable failure ever pulled off.

W. S. Kaltenbacher, the critical sage of the Louisville Times, says that Judge Charles Kerr's recent day speech at the republican powwow in that city has made republicans, who have their eyes on Senator James' seat, sit up and take notice. If such a speech as can make him strong with his party certainly is a shame on it. In a word of laudation for the great Lincoln it was a thinly disguised attack on the President that ought to have done him forever politically.

Perhaps the Lincoln dedication day was so because it was ended by a lot of small bores morose on getting a chance at the lions and fishes than in paying respect to the martyred president. Ed Morris was not there, neither was Judge O'Rear, A. T. Hert or Judge M. No wonder it degenerated into a partisan powwow and that patriotism was lost sight of, even if such a crowd ever felt so noble an impulse.

A bill is before the Legislature to prohibit ambulance chasing and to penalize the practice. So-called lawyers make it a business to stir up railroad accidents as soon as they hear of them and try to induce the injured to let them bring suit for damages. It is a very reprehensible practice and ought to be put under the ban of the law.

There is an effort to have the Legislature legalize the working of farmers on Sunday, but it appears to a man who believes that the commandments should be obeyed and that the farmer, like other people, can do all the work necessary in six days to be an unjustifiable effort to substitute man made law for God made law.

Kentucky suffers another failure of justice. Deputy U. S. Marshal Eubank, who killed City Clerk Rigo at Mt. Sterling, was let off with ten years, when if we read the testimony aright, death alone could atone for such a murder.

It did not take the women's section hands employed by the Lehigh railroad long to catch on to man's ways. They have already gone on a strike for higher wages and fewer hours.

The U. S. Senate Committee cut out the usual appropriation of \$242,000 for seeds to be sent free by the members, but is in dollars to doughnuts that it will be reinserted, as usual. The free seed proposition is a delusion and a snare, generally speaking, as many of the seed sent out will not germinate, but the old electioneering trick will continue to fool those who are proud to be remembered by their Congressman or Senator.

It seems to be the general impression that any man who can preach and expound the Scriptures is competent to become an army chaplain but the fact that a training camp for chaplains has been established at Fortress Monroe shows that more is requisite. The would-be chaplains are to be taught military law, international law, military science and tactics and hygiene.

With the help of the eight Democratic Senators the Republican members of the upper branch of the General Assembly succeeded in ousting Senator Roy L. AND NOW THEY ARE COOKING TOBACCO TO MAKE IT BETTER

For a good many years The American Tobacco Company have been conducting a series of experiments having as their object the improvement of smoking tobaccos.

And it is interesting to know that one of the greatest of their discoveries was one of the simplest, and that was, that cooking or toasting tobacco improved it in every way, just as cooking most foods improves them.

They took a real Burley tobacco, grown in this country; toasted it as you would toast bread; moistened it to replace the natural moisture driven off by toasting; made it into cigarettes, called them "LUCKY STRIKE, the toasted cigarette," and offered them to the public.

The result has been the greatest demand ever created for any tobacco product in a similar length of time.

The change produced by toasting is not only most wholesome, but the flavor is greatly improved, just as cooking improves meat, for example.

STEADFAST CONFIDENCE

The Following Statement Sold Form Conclusive Proof Of Merit To Every Stanford Reader

Could stronger proof of the merit of any remedy be desired than the statement of grateful endorser who say their confidence has been diminished by lapse of time? These are the kind of statements that are appearing constantly in your local papers for Doan's Kidney Pills. They are twice-told and confirmed with new enthusiasm. Can any reader doubt the following. It's from a Stanford resident:

J. T. Spoonamore, Whitley, Ky., says: "Four years ago I was laid down with my back. I couldn't get up or do any lifting to amount to anything. The kidney secretions were so frequent in passage and caused me a great deal of annoyance. I had about a dozen different kinds of medicine but didn't get any better. I used Doan's Kidney Pills, finally, and by the time I had used two boxes of this medicine the trouble was removed." (Statement given December 29, 1911.)

Is Always Benefited

On November 13, 1916 Mr. Spoonamore said: "I am always glad to recommend Doan's Kidney Pills. They always help me when I have need of a kidney medicine."

LOOK

These over. After you read them you will say, Bargains! WE KNOW that they are not only Bargains but each one is a rare opportunity to make money. Opportunity does not knock at your door every day. To know when to take advantage of an opportunity and ACT spells—SUCCESS. Land is the safest investment in the world and is just as sure to go higher as you exist today. How can land stay at from \$100 to \$200 per acre when lots of acres yield several times 100 per cent on the investment? There is no stock, bonds or anything else that will beat investing in land and surely nothing safer. READ and ACT. Delays are dangerous. These bargains cannot stay on the market long at these prices. And the longer you wait to make an investment the more you will have to pay. Get in on the ground floor before it is everlastingly too late. TRAINS 30,000 HOME SERVICE COMMITTEEMEN

Red Cross With Institutes,
Handbook and Bulletins,
Teaches Civilian Relief
Forces How to Aid Folks
"Back Home."

[EDITOR'S NOTE:—This is the fifth and last of a series of five articles written by Mr. Fleeter on American Red Cross Home Service work in Ohio, Indiana and Kentucky.]

By James L. Fleeter,
Director, Civilian Relief, Lake Division, American Red Cross.

Organizing and training 30,000 Home Service committeemen to aid families of enlisted men is the most stupendous and pretentious task being undertaken by the American Red Cross within our own borders.

This statement is made without fear of contradiction.

Even were there established social agencies in every community from which men have been drawn for active service, this Red Cross duty would be hardly less difficult, because with the war have come new problems which must be solved, and efficiently too, if the good name of the Red Cross is to be held aloft and the minds of our fighting folk set at ease about the welfare of their loved ones "back home."

To school willing Home Service workers with no previous social training as well as keep professional community workers abreast with new developments, the Red Cross war council established in the Lake division Home Service Institutes at Indianapolis, Cincinnati, Columbus and Cleveland, each identified with a strong university and each affiliated with healthy social agencies.

Thirty-five counties were represented by fifty-six students at the first series of institutes, each institute lasting six weeks. A second series has just opened. In addition, chapter courses of information are to be established in cities of 25,000 population and over.

There is no guess work about Red Cross Home Service.

Workers are being trained to help citizens gain all sorts of information. If a family has not heard from a son in the service, if the allotment and allowance check is delayed or wrong in amount, if a boy is reported missing, if any one of hundreds of possibilities occur, the Home Service worker must be alert to his or her responsibilities.

To show that there are "hundreds of possibilities" for this service, the American Red Cross has prepared for its committeemen a handbook containing correct answers to 260 questions which these committeemen have already been asked.

Forty-nine answers to questions on army and navy service, running from the composition of the fighting forces to explaining what must be done to assist the family of a man who has entered the service under an assumed name, are given in this handbook.

Eighty-six points on the soldier's and sailor's allowance compensation and war risk insurance are explained. The latter in itself is so large a task that a Home Service worker, anticipating a "soft snap" might be driven to cover if there were no handbook or institute course to lessen his perplexity. It is down in black and white how the insurance is written and for whom, how premiums are paid and by whom. Six points of information are provided to cover insurance for crews of merchant vessels and transports.

American Red Cross Home Service for families of enlisted men fighting for our allies causes twenty-nine questions to be answered in the handbook.

All this is supplemented by eighty-nine statements giving information on the status of families of discharged men, deserters, and alien enemy families and explaining relationship of the Red Cross to other relief societies and the operation of the Red Cross bureaus of camp service and communication.

Despite the fact that this handbook has just been issued, new and puzzling questions are arising with such rapidity that the bureau of civilian relief of the Lake division, is planning an informational service to keep its Home Service workers in 350 chapters in step with the fast-moving procession.

War (regardless of the Tuscan calamity and a few scattering casualties)—war and Red Cross Home Service are still in their infancy, but already some 3,000 families of Ohio, Indiana and Kentucky enlisted and selective service men are under the care of Red Cross Home Service workers.

Picture the immensity of the task when the "American offensive" begins.

Red Cross Home Service will be ready. It is democracy's brotherhood in action.

LOUIS LANDRAM

In Louis Landram, of the Danville Messenger, whose death occurred in Danville Monday, was exemplified the so-called "country editor" of the best type; the wide-awake, well-informed, capable newspaper man, prominent and popular in his community, versed in the political conditions of his State, acquainted with pretty nearly everyone in the State's "Who's Who" of politics, and known widely beyond his circle of personal acquaintances as an editor.

The State Journal reflects the sentiment of the press of the State when it mentions the death of Louis Landram with more than a passing regret, and when it says that through his death journalism in the State suffered a material loss and good citizenship suffered an equal loss.

Mr. Landram was well and favor-

ably known in Frankfort. Widespread sorrow is felt at the news of his untimely end.—Frankfort Journal.

At Luther Hager's sale at Burgin horses sold from \$75 to \$115; mules from \$115 to \$175; four weanling mules sold for \$105 a piece. Milk cows sold for \$75 to \$135. Corn brought \$7.50 a barrel. Clover hay sold for \$27.50 a ton.

The Administration will make every effort to block any attempt to boost the price of wheat. As a result of the various bills introduced to advance the price of wheat the flow of grain to terminals and mills is almost at a standstill. The programme of the Food Administration is in danger of being upset and a great advance in flour would result. Because of the stores of wheat and flour held by speculators, it is estimated they would reap millions of dollars by the increase.

"A SPLENDID TONIC"

Says Hixson Lady Who, On Doctor's Advice, Took Cardui And Is Now Well.

Hixson, Tenn.—"About 10 years ago I was..." says Mrs. J. B. Gadd, of this place. "I suffered with a pain in my left side, could not sleep at night with this pain, always in the left side..."

My doctor told me to use Cardui. I took one bottle, which helped me and after my baby came, I was stronger and better, but the pain was still there.

I at first let it go, but began to get weak and in a run-down condition, so I decided to try some more Cardui, which I did.

This last Cardui which I took made me much better, in fact, cured me. It has been a number of years, still I have no return of this trouble.

I feel it was Cardui that cured me, and I recommend it as a splendid female tonic."

Don't allow yourself to become weak and run-down from womanly troubles. Take Cardui. It should surely help you, as it has so many thousands of other women in the past 40 years. Headache, backache, sideache, nervousness, sleeplessness, tired-out feeling, are all signs of womanly trouble. Other women get relief by taking Cardui. Why not you? All druggists.

In writing to his old home paper, the Maysfield Messenger, Dr. H. J. Brazelton, pastor of the Christian church of this city, adds this paragraph to the editor: "You will be glad to know our lines have fallen in pleasant places and that we are with a church that is generous in the treatment of its preacher." The Interior Journal is glad that Dr. Brazelton is so well pleased with his church and people and is further gladdened by the fact that his membership and Lincoln county people generally are more than pleased with him and his.

THE LATEST WAR NEWS

Secretary of War Baker is expected to call the next draft quota May 1. This indicates that more men are being sent overseas than the public realizes; also to equip an additional 500,000 men, which number is expected to be included in the next call.

The first American-built battle planes are on the way to France, five months ahead of schedule, according to an announcement made by Secretary Baker. The machines are equipped with the Liberty motor which in recent tests surpassed all records for speed and climbing.

German troops continue to invade Russia. Troops from warships in the Gulf of Riga have entered Southern Estonia in their sweep of the powerless nation. In the Reichstag the Foreign Minister has volubly declared that the Russians are not to be trusted, this in spite of a general clamor for peace on the part of Bolshevik leaders. The German people, it is declared, are opposed to pushing the invasion when a cessation of hostilities is possible.

Secretary Baker, in his weekly communication, expressed the utmost confidence that the Allies, thoroughly prepared to meet the impending German offensive, would repulse the invaders. The Secretary of War said although Hun troops have been trained for weeks for the onslaught, the Allied lines have been strengthened to such a point that a smash through is practically impossible. He said that by their tactics it is apparent the German military leaders are expecting a victory.

GRANGE MASTER INDORSES BONDS

Urges Ohio Farmers to Prepare for the Next Liberty Loan Drive

GRANGESURPLUSALL INVESTED

Nation's Securities Best Investment on Earth. Farmers Should Prove Patriotic by Buying.

Barnesville, O.—(Special)—Louis J. Taber, master of the Ohio State Grange, urges that the coming Liberty Loan drive be made the subject of special discussion and consideration in the Washington-Lincoln-Liberty meetings now being held in the various sub-granges throughout the state. Mr. Taber favors a big farmer investment next drive.

"The next Liberty Loan campaign," he says, "will afford the Grange an exceptional opportunity to serve patriotically not only our order, but agriculture, the country and civilization at large. The motto of the state grange is 'A bond in every farm home in Ohio.' The state organization has invested every penny of its surplus in Liberty bonds. Sub-granges should follow its example.

"Nor should we stop there. Every patron and every farmer should be reached. For there is not a farmer in Ohio but can afford to buy at least one Liberty Bond on the very easy terms offered. Every one should hold at least one bond. The farmer was not a heavy purchaser in either of the earlier drives. There were reasons justifying this condition then, but there is no adequate excuse for his failure to purchase now.

"No class of men have been more criticized than the farmers, however unjust this criticism may have been. They will soon have an opportunity to refute these charges, and I am confident they will maintain the traditions of their patriotic forefathers by coming nobly to the financial rescue of their country. There is no better or safer investment on earth than a Liberty Bond.

WORK, SAVE, FIGHT.

These are the three cardinal requisites of the present condition of world menace. They are the summing beatitudes of our chaotic times. We will ignore them only at our peril. We will shrink them only at an overwhelming cost. We must do not only one, but all to win. And win we must.

To lose this conflict with the Kaiser's hosts; to bend the knee in submission to the will of the Prussian autocracy; to accept peace terms dictated by the war lords of Germany, would be to trail in the dust the highest hopes of Democracy. It would mark the Waterloo of Liberty. It might spell the end.

America wants no autocratic domination at this late day. The United States has led the way in world enlightenment and the sowing of the seeds of freedom too long ever to submit to tyranny. And German victory would mean that.

So we must work to the utmost in our respective lines that the normal production may be maintained and our material needs may be met fully and promptly.

We must save, economize, curtail, that home consumption may be reduced and our individual resources be kept to their normal standard.

For in doing both we will have more to offer our government, directly and indirectly, through personal sacrifice and investment in war securities.

And we can trust our boys at the front to do their share of the fighting; the spirit of freedom will inspire to that.

Work, save, fight and WIN. That's our program.

THE SHADOW BEFORE.

Remember that story which flashed across the cables some weeks ago about an American sentry having been killed by a German night patrol?

Evidently they surprised and overpowered him. They might just as easily have taken him prisoner. But they didn't.

They cut his throat from ear to ear! Not a pretty story; not a story commending the much vaunted German kultur; not a story calculated to inspire confidence in the Kaiser's close following peace proposals.

But intensely illuminating! It was notice, served in the German way, of what our boys in khaki may expect.

It was an early intimation of what the gore-maddened Hun may be expected to do if he ever puts his nailed heel and his mailed fist upon American shores.

And in the usual Prussian way it was done in the dark!

God help America if we fail to bring every resource to bear in winning this war.

And God help you and yours if you fail to do your part.

Buy a Liberty Bond before it is too late.

We MUST strafe the Hun.

A lot of pessimistic prophets are sorely disappointed that the last Liberty Loan failed to "bust the banks."

Mr. Harve Collier, who has been so very sick is much improved, his many friends will be glad to hear.

Miss Lillie Garner, of Cedar Creek section, visited Mrs. Mollie Burgin, Mrs. Susie Curtis and Mrs. M. E. Fish several days this week.

Mrs. Emma Farris has returned from a most pleasant visit to Mrs. J. Fox Dudderar, at Rowland, and Jailer and Mrs. DeBorde, at Stanford.

Mrs. Melvin Collier and her brother, Dr. L. F. Jones were called to London last week by the serious illness of their mother and sister, Miss Edna Jones. Both are much improved.

The Red Cross chapter at this place has made the following articles for the soldier boys this winter: 28 pairs of socks, six sweaters, seven pair wristlets, eight pairs of pajamas, 11 scarfs and three comfort kits, with lots of other work almost completed.

Little Miss La Rene Edmiston entertained a few of her friends Saturday evening in honor of her 12th birthday. DOINGS THE COUNTRY OVER

To provide for her pet dog, the interest of \$1,000 is bequeathed in the will of Mrs. Quincey Burgess, probated in Bourbon county Court.

The Spurrier bill to prevent drinking on trains and giving police power to conductors and trainmen passed 76 to 3 in the Kentucky house.

Seven telephone companies were assessed on their tangible property \$4,973,675 by the State Tax Commission, an increase of \$2,873,544 over last year.

Treasury receipts from war savings stamps amounts to \$2,845,823, bringing the total for February to \$25,134,933 and the total for the campaign to \$59,931,107.

Future issues of treasury certificates of indebtedness, planned in preparation for the third Liberty loan, will bear an interest rate of 4-1-2 per cent., or 1-2 per cent. more than issues of the immediate past.

Among the largest items in the Rivers and Harbors Bill, carrying \$19,270,000, the smallest amount in years is \$5,000,000 for continuing the work on the Ohio River. No appropriation for new projects or for surveys was included.

The first step to establish a hospital for the criminal insane was taken by the Senate in the passage of a bill by a vote of 22 to 7 providing for their separate confinement. The bill provides that any criminal found to be insane, after the commission of a crime, will be confined in a separate department in one of the penal institutions instead of at one of the State hospitals for the insane.

Senator Overman is confident of victory for his bill to increase the power of the President, although several clauses may be revised before the measure goes to a vote next week. It is expected that the Republican Senators will continue in their demands for a War Cabinet and Munitions Director and have the clause stricken out authorizing the President to create new war agencies, thereby limiting him to changes in existing agencies.

MR. LINCOLN'S GREAT HEART

The following is a copy of a letter written by Abraham Lincoln to Mrs. Bixby, of Boston, who had lost five sons in the war. A copy of it has been preserved in the British Museum as an example of perfect diction:

"I feel how weak and fruitless must be any words of mine which should attempt to beguile you from the grief of a loss so overwhelming. But I cannot refrain from tendering you the consolation that may be found in the thanks of the Republic they died to save. I pray that our Heavenly Father may assuage the anguish of your bereavements, and leave you only the cherished memory of the loved and lost, and the solemn pride that must be yours to have laid so costly a sacrifice upon the altar of freedom. Yours very sincerely and respectfully.

ABRAHAM LINCOLN."

Can you afford to pay less?

For over 30 years Crossett Shoes have stood for unusually good leather—strong of body, fine in grain. That is what has given them their superior wearing qualities.

Today such leather can be used only in shoes costing at least \$7.50 to \$12.

Men pay more attention to values than they used to. They find that shoe dollars go further in a high-type shoe like Crossetts.

The shoe below is a fine example of Crossett style and comfort. Let us show it to you.
